Booking cancelled, but still on holiday

22% of campers have or had booked one or more campsites for 2020. 20% cancelled the booking. This does not mean that these holiday plans will not go through. Almost 59% of them indicate that they still will be going on the road. Only 12% will not camp at all in 2020; this concerns only 5 campers.

Plans of non-bookers 2020

Holiday plans changed

Campers who did not book but had holiday plans in mind are largely planning to go on holiday. Only 6% indicate that they cancel their holiday plans and will not go on holiday in 2020.

Camping intention - months 2020

Period - shift to autumn

What were originally the most popular camping months and what are the favourite ones now? Research shows that campers initially wanted to camp mainly in June, July, September and October. That's now moved to September.

Camping intention - countries 2020

Destination - own country now more popular

The wishes of French campers have also changed in terms of destination. Their own country has become even more popular: there is a shift to France from all countries.

Corona voucher

Positive reception

Many travel agencies and campsites offer a travel voucher instead of a refund if the holiday cannot go ahead. The study asked whether the camper agrees with the statement 'I understand if, given this exceptional situation, a campsite offers me a voucher for the (down) payment instead of a refund'. 55% agree (completely) with the statement. 33% (completely) disagree with the statement.
